

## REGIONAL CONFERENCE ON EDUCATION IN EMERGENCIES (EiE) AND DISASTER PREPAREDNESS

10-12 December 2013, Manila, Philippines

### TEMPLATE FOR COUNTRY NARRATIVE REPORT ON DRR/EI E

*This Template provides guidance on the scope and coverage of the Country Narrative Report on DRR/EiE. We welcome other sections not covered in this template to reflect specific contexts across different countries.*

### COUNTRY NARRATIVE REPORT ON EiE and Disaster Preparedness SEAMEO MEMBER COUNTRY: \_\_\_\_\_

#### A. Overview of Disaster Situation in the Country and its Effect on Basic Education Delivery

- Brief description of the nature of disasters (natural and man-made) in the country and the impact of disasters in providing education for all. Discuss the extent, impact and cost of damages to important factors in the delivery of educational services such as disruption to classes, impact to educational personnel, damages to educational facilities, effects on school attendance, performance and completion, and psychological/emotional conditions of learners;

#### B. Policies and Strategies on EiE and disaster preparedness

- An enumeration and brief description of national policies, strategies and programs that are in place to mitigate the effect of emergencies on education, schools and learners

#### C. Challenges and Good Practice on EiE and disaster preparedness

- Select one national strategy/program/project that has been effective in mitigating the effect of disasters on education, schools, and learners as supported by evidence. Provide a brief discussion on the following:

##### 1. Title of the Program/Strategy

##### 2. Program Objectives

- Objectives of the program, including its expected contribution to the attainment of country objectives and EFA goals

##### 3. Program Description

- Describes program targets
- Intervention strategies;
- Roles of education stakeholders and partnerships

##### 4. Results of the Evaluation of the Program

- Benefits gained from the program
- Implementation issues and challenges

##### 5. Possibility of Replicability to Other Countries

- Recommendations on how the program can be replicated to other SEAMEO Member Countries
