

Education Policy Reform Trends in Southeast Asia and China

I Key Issues for Each Chapter

- What are the most significant education reforms in your country since 2008?
- Why such policy reform(s)?
 - What issues have the policy tried to address?
 - What are underpinning assumptions of the policies?
 - How does such policy relate to economic and social development?
- What are major changes intended in the policies?
- How were policies implemented?
- What has been the impact of the reforms?

II. Factors to be Considered

- Methods: Case study, qualitative study, narrative analysis?
- Time frame: since 2008?
- Focus: Basic Education or Across the Board?
- Word Count: 6000-8000 words?
- Format: APA Style?
- Copyediting: individual or collective?
